Outside - Inside

Pedro Soares Neves

Outside - Inside can be freely interpreted, allowing all declinations the authors would desire. Inside as in the physical space, inside at home, but also inside as inside yourself, personal feelings locked inside ourselves, intimate impulses. Outside spatially as the public space, and outside as the relations we have with others, our contact points with the exterior world mediated by our senses. The Black Book Drawing and Sketching journal give both written and visual space for exploratory research on cross domains that contact the mentioned topics.

BBDS journal is focused on applied research, and we welcome exclusively image based submissions with secondary supportive texts. The images can be of work planning, doodling, photos, collages, diagrams, visual ideas or other.
